PROJECT EXPERIENCE

Multi-Vendor E-Commerce Marketplace | 2026

Technologies: MongoDB, Express.js, React.js, Node.js, Redis, Stripe

- Built a multi-vendor e-commerce platform with independent vendor storefronts and RBAC for customer, vendor, and administrator roles.
- Implemented MongoDB data models and Redis caching to support inventory synchronization across multiple vendors.
- Created REST API integrations and connected Stripe payment processing to a React single-page application.
